Heredia, Costa Rica

(+506) 8304 2698 ◇ dylalva1933@gmail.com

PROFESSIONAL PROFILE

Aspiring data scientist with a strong foundation in Python and data analysis. Experienced in using scikit-learn and TensorFlow for data modeling and experimentation. Passionate about solving real-world problems with data. Strong communicator and peer mentor.

EXPERIENCE

Software Developer, Universidad Nacional de Costa Rica (UNA)

- Engineered a reinforcement learning model for Pac-Man ghost behavior, combining graph-based pathfinding (A*) with Q-Learning using Python and NumPy.

Student Tutor, UNA

February 2025 - Present

- Mentored students in information systems engineering with personalized academic support.
- Designed custom exercises and explained theoretical concepts for improved understanding.

Student Assistant - Discrete Structures, UNA

February 2025 - Present

- Led study sessions and created supplementary materials for Discrete Structures.
- Used Wolfram Mathematica to demonstrate theoretical and applied problems.

PROJECTS

Housing Price Prediction Model

Individual project, 2025

- Built a regression model using Python, NumPy, and scikit-learn to predict housing prices.
- Applied feature engineering and evaluated model performance to optimize accuracy.
- Presented findings using Jupyter Notebooks and visualizations.

CI/CD Pipeline for Flask Application with Docker and Kubernetes on Azure *Short-term group project, 2025*

- Developed a CI/CD pipeline for a containerized Flask app using Docker and Kubernetes (AKS).
- Used Terraform (HCL) for cloud infrastructure provisioning.
- Automated testing and deployment with Jenkins and GitHub Actions.
- Delivered collaboratively under time and resource constraints.

Sistema de Evaluación del Desempeño, PIMA

March 2025 - June 2026

- Served as Scrum Master coordinating agile development processes and facilitating team collaboration.
- Automated data processing workflows to improve efficiency.

EDUCATION

Universidad Nacional de Costa Rica

Bachelor's Degree in Information Systems Engineering

Ongoing. Expected graduation: May 2027

CERTIFICATIONS

Cisco Partner: *NDG Linux Essentials, Python Essentials 1*

Microsoft Learn: *Automating Workflow with GitHub Actions (Part 1)*

Udemy: *Beginning C++ Programming - From Beginner To Beyond, Machine Learning y Data Science con Python*

SKILLS

Data Science *Python, Pandas, NumPy, scikit-learn, TensorFlow, Jupyter, Anaconda*

DevOps & Cloud *Docker, Terraform, Azure, AWS, AKS, Jenkins, GitHub Actions*

Databases *Oracle, MySQL, SQLite, Firebase Realtime Database*

Programming Languages *Python, PL/SQL,*

Java, C++

Development Tools *Git, GitHub, Azure DevOps, JetBrains Tools*

Operating Systems *Windows, Linux*

Methodologies *Agile (Scrum)*

Languages *Spanish (Native), English (B1)*
